MASTER OF WINE, SARAH ABBOTT

There are only 426 Masters of Wine in the world - and our own MW's depth of knowledge and zeal for her subject are legendary.

With Swirl & Cellar you will be privy to the depths of her knowledge, expertise and connections. And you'll have access to some of the world's most extraordinary vineyards.

WINE CONCIERGE

Open a bottle of wine: open possibility. Intoxicating, transformative possibility. Where will it take you? How will it make you feel?

If you want the opportunity to deepen your experience of wine then our Wine Concierge is for you.

We offer personalised tuition on tasting and wine etiquette; food and wine matching for special events and expert advice on starting your cellar.

Though Swirl & Savour, we also offer full event planning from design to delivery for your milestone celebrations.

CELLAR SERVICES

We offer wine collectors a discreet cellar service, including appraisals, valuations, cellar management and expert witness services.

We can also advise on cellar organisation, compiling regular stock reports, valuations, buy/sell recommendations, and auction management.

We are independent of any wine supplier, and do not trade in wine. Our terms are transparent and accountable, and we do not accept commission from brokers or auction houses.

WINE AUTHENTICATION

We provide wine authentication and fraud detection advice, as well as providing expert wine appraisals and valuations for underwriters and insurers.

We have partnered with leading portfolio insurers, La Playa, to develop a wine insurance policy for home cellars.
